

ALTITUDE WINDOWS

 RISE RENOVATION

ENJOY A NEW VIEW

WITH THE AWARD WINNING
ALTITUDE SERIES

Why Rise? We offer an exclusive selection of quality, award-winning windows and doors that are crafted to exact specifications of your home for a lifetime of reliable performance. You get peace of mind knowing you have industry-leading warranties and committed customer support. Our advanced glass packages maximize energy efficiency and thermal performance for Colorado's climate, always meeting and exceeding ENERGY STAR® requirements.

The logo for RISE features three vertical bars of increasing height to the left of the word "RISE" in a bold, sans-serif font.

AWARD WINNING DESIGN

Save money and increase the comfort of your home with the most awarded energy efficient window in 2014, 2021 and 2022.

ENHANCED SECURITY

Keep your home safe with steel-reinforced meeting rails and our defense locking system.

ALL WEATHER CRAFTSMANSHIP

Our exclusive vinyl formula is performance tested for excellent weathering, durability and color retention.

CUSTOM MADE TO FIT

Each of our windows is custom made to fit your home, making for clean and simple installation.

NOISE REDUCTION

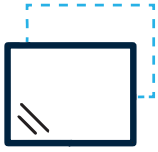

Improved sound control ensures quiet enjoyment of your home, giving you a better night's sleep and enhanced tranquility overall.

AAMA Gold Certification & ENERGY STAR Partner Distinction

The Rise Renovation Altitude Series Window by Simonton has been recognized repeatedly by building professionals for its outstanding quality, durability and energy efficiency. As an ENERGY STAR® partner, Simonton manufactures windows that have been proven to decrease heating and cooling costs, increase comfort and reduce environmental impact. Simonton built windows are AAMA Gold Certified for exceptional strength and weather resistance, making leaky, drafty windows a thing of the past.

The Invisible Window Screen

Our exclusive Invisible Screen, appears any time you open the window and folds away when the window is closed. Made of durable screen cloth, the screen is designed for long-lasting use and provides the clearest view.

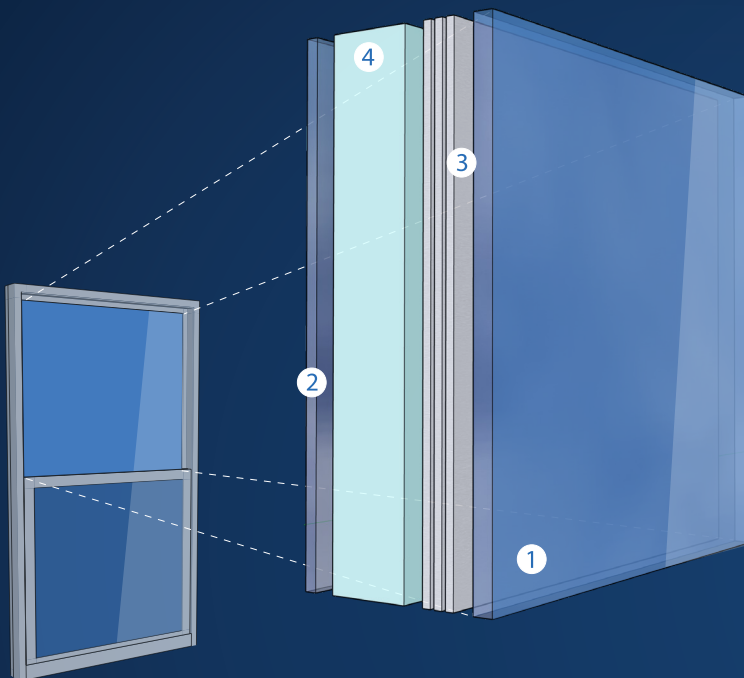

Stronger, More Durable Frames

With multi-chambered frames and reinforced sashes, our window frames are stronger than ordinary vinyl to resist warping, twisting and fading. Performance tested for excellent weathering, durability and color retention.

Exclusive Weather-Repel System

Our windows include three points of protection to channel water away from the home, including triple weatherstripping.

1. Double-strength glass
2. Noise deadening features
3. Layered silver coating reduces energy loss
4. Argon gas insulates glass

Climate Control Glass

Our glass package is manufactured specifically for the Colorado climate, and our window was awarded ENERGY STAR® 2022 **Most Energy Efficient**.

By utilizing advanced features, windows awarded ENERGY STAR® **Most Energy Efficient** status substantially decrease heating and cooling costs, provide exceptional interior comfort and protect the climate.

Experience the difference.

Tilt to Clean

It's rare when a window can make cleaning easier. With the tilt to clean feature, you can safely clean the exterior of your windows while inside your home. That means no ladders or extra effort. A seasonal chore easily becomes normal quick and easy maintenance with a simple push of the latch.

Convenience at your finger tips.

AutoSense™ Lock Peace Of Mind.

The lock is automatically activated when the window is closed, which means you always know when your windows are locked. The AutoSense™ Lock surpasses the nation's strictest forced-entry code requirements while its sleek, low-profile design doesn't intrude into the sightline.

It's as attractive as it is strong.

Climate Control Technology

Our cutting-edge energy efficiency glass package increases your home's comfort while saving you money every month.

Acoustic Glass

Improved sound control means more peaceful enjoyment of your home.

Constant Force Balance Operation

Scientific principles ensure a lifetime of easy operation as you open and close your windows.

Steel-Reinforced Meeting Rails

This design feature means increased security and decreased air infiltration.
